Pre-Greased Beryllium Copper Socket

Cast Brass Shroud Included

Stainless Steel Captive Screws

In Ground Mount, ABS Sleeve for Concrete Pouring Included

Tempered Dome Lens

Includes Full Lens Kit and Hex Louver

The Nova is especially designed to provide glare-free in-ground lighting solutions, for uplighting trees, shrubs, pillars, and other vertical structures. With its frosted bubble lens and self-centering lamp bracket, it allows you to light multi trunk plants. The die cast brass shroud accessory is designed to minimize glare while the designer lenses allow maximum design control by creating various beam spreads and light output.

Use of other manufacturers' components and power management system materials will void warranty, listing, and present a possible safety hazzard. Please use caution when specifying lamps by selecting the proper voltage, base type, and wattage lamp when designing and installing any lighting system.

UPC #:785652173059

Finish: Weathered Brass (147)

Dimensions:

Diameter: 3 3/4"

Wire: 300" (color/Brown)

Height: 5 1/8"
