Material List:

1 Construction - 0 - Undefined - Chestnut

Safety Listing:

cETL Listed for Wet Locations

In addition to having the highest quality parts, you need to have an integrated system to create a cohesive lighting portrait. Unique Hubs create the only system that produces even lighting output at every fixture and allows for relocation of fixtures at any time. The Hub System ensures proper voltage distribution and can be used with one or more fixtures.

Includes Box, 3 Lug Nuts, 1 Inline Fuse Holder, 1 10Amp and 1 20Amp Auto Spade Fuse

Use of other manufacturers' components and power management system materials will void warranty, listing, and present a possible safety hazard. Please use caution when specifying lamps by selecting the proper voltage, base type, and wattage lamp when designing and installing any lighting system.

UPC #:785652174063

Finish: Chestnut (40)
